

Digital Parenting Training

Digital Parenting Training

Aims

This one-day course aims to showcase good practice and issues regarding young people's welfare, safety and development in the digital world. The course covers sexting, cyberbullying, online grooming and 'on the ground' issues for practitioners, parents and carers.

Objectives

- Understanding the benefits and challenges of the online world
- Understanding your child's digital identity including the role of the practitioner, parent and carer
- Identifying risk and harm such as online grooming or cyberbullying
- Increasing protective factors
- Developing digital resilience

Course Content

The digital world provides children and young people with continuous opportunities for learning and discovery, but also increasing threats to their wellbeing and safety. This course attempts to explore this in greater detail and identifies the risk and protective factors that need to be in place to safeguard children and young people online.

Outline

- Discussion on 'Born Digital' & 'Raised Social'
- Overview of existing policy on online safety
- Social media & the online world (apps)
- Cyberbullying & online grooming
- Gaming, sexting & pornography
- Drugs & the digital world
- Digital wellbeing and understanding 'digital resilience'

Cost

£700 for the day, excluding travel and accommodation.

This is for a maximum of 20 delegates. All courses are delivered UK-wide at a venue of your choice. Contact Tony D'Agostino at tonydaguk@gmail.com to make a booking.
